

KittyToes

Boat 1978 Tayana cutter

Present owner has sailed Kittytoes for the last 15 years with 13 of those years in the sea of Cortez, she is stored on the hard in the off season and is covered, all sails including dodger and running rigging are removed and stored below deck thus ensuring that this equipment is in top condition. Prior to the present owners the boat spent her time in the Gulf islands with a short stay in Alaska. We sailed Kittytoes from the gulf islands to Mexico 2009 and have never left.

Kittytoes has been in dry storage for the past 3 years. All sails dodger and covers stored below deck and dry. Boat has a sun cover for protection in dry storage.

Dry storage can be assumed by purchaser if so, desired thus having a location in Mazatlán to keep the boat

Due to health and age, we are looking to have someone continue the adventure Kittytoes has to offer.

Kittytoes has been completely overhauled as follows.

Hull and decks refinished all bright work is varnished with 5 coats of epithane.

The boat was re-wired with a new electrical panel as well as all LED fixtures.
